

MIKE MULHAUSEN

SOFTWARE DEVELOPER

Digital talent as a web and mobile software and app architect, developer and engineer collaborating with client project teams from discovery to design development through to testing and implementation. Recognized and rewarded for ability to quickly learn new software and development technologies and tools and consistently delivering quality work for clients.

.NET MOBILE AND WEB PROFESSIONAL

Deep knowledge of mobile app development and systems integration, architecture systems experience and solid back-end development experience.

LANGUAGES

C# 
Java 
C++ 
SQL 
HTML/CSS/JS 

RELEVANT TECHNOLOGIES

Xamarin 
MvvmCross 
ASP.NET Web API 
ASP.NET MVC 
GIT/Mercurial 

SOFTWARE

Visual Studio (Windows) 
Visual Studio (Mac) 
VS Code 
Microsoft SQL Server 
Xcode 
Android Studio 

CAPABILITIES ■ SKILLS

Make the complexities of web and mobile software development easy to understand for stakeholders.

Solve problems ■ Listen ■ Analyze client needs
Team-orientation ■ Brainstorm ideas/solutions
Prioritize ■ Organize ■ Simplify
Client management ■ Project management

EDUCATION

UNIVERSITY OF ILLINOIS AT URBANA-CHAMPAIGN
COLLEGE OF ELECTRICAL & COMPUTER ENGINEERING (ECE)
B.S. Computer Engineering

June 2013-Sept. 2015
June 2012-Dec. 2012

Senior Software Engineer
Software Engineer
Junior Developer
Software Intern

On projects analyze and define needs and collaborate with cross-functional teams to architect systems, design, develop and implement quality software solutions for client websites and mobile apps—Android and iOS. Clearly and regularly communicate with client project teams and with in-house team to ensure projects are on track, on budget, on deadline and documented for reference.

- Simplified a cumbersome people-intensive process to connect real estate brokers and photographers to reduce overhead expenses and time to get a property on the market.
- Turned the most popular feature on a client's website into a mobile app to get in-field repair professionals the information needed on 15,000+ parts to reduce time to close sales.
- Designed a back-end communication application to exchange and share healthcare information from disparate computer and software systems. Complied with HL7 standards.

Dec. 2011-May 2013
